

Amy Lai Pan
Alumni of the New York College of Technology
August 21, 2023

To whom it may concern,

It is my pleasure and an honor to recommend the promotion of Professor Sara Gomez Woolley. My name is Amy Lai Pan, I'm a freelance illustrator and concept artist. I had the pleasure of working with Professor Woolley as a mentee during an intense senior project.

From the project's inception to final presentation, Professor Woolley's experience in narrative illustration opened the pathway for me to create a successful fantasy art portfolio. Her guidance and critiques encouraged me to push the boundaries of storytelling with my own illustrations, thereby not only improving my skills as an illustrator, but a communicator as well.

There are few mentors that fervently support their students throughout their college ups and downs. There are even fewer who would go so far as to champion their students beyond the classroom. Professor Woolley has provided each and every one of her students the resources and opportunities to launch their art careers. The MoCCA Fest, SOI marketplace, and Highlights Foundation are just some of what Professor Woolley has made possible, and accessible, for her students and alumni.

Professor Woolley's experience as a professional illustrator and her unwavering determination to ensure her students thrive in and out of the classroom thoroughly qualifies her a promotion. There is no doubt that Professor Woolley will continue to bring out the creative best in students within City Tech's Communication Design department.

Please let me know if you have any questions regarding Professor Woolley's accomplishments. You can reach me at amylai616@gmail.com for further elaboration.

Sincerely,
Amy Lai Pan
