

# Research Internship Opportunity

## Open to Undergraduates Majoring in Science, Technology, Engineering and Mathematics (STEM)

The Brookhaven National Laboratory and several New York City government agencies will conduct a series of air pollution/dispersion modeling studies in New York City to better understand the flow of contaminants in complex urban environments. Forty (40) City Tech students will be selected to work in the field along-side geoscientists to conduct the study, collect data, and attend training and technical seminars. Written assignments and reports will be required.

### REQUIREMENTS

Open to all STEM undergraduate students with a GPA of 3.0  
Student must be either U.S. Citizens or PRA (Green Card Holder)  
Must be 18 years or older

### DURATION

Mandatory Orientation:

July 1, 2013 (Monday)  
Brookhaven National Laboratory  
7:30 AM — 4:00 PM

Internship: Three (3) weeks:

July 8 to July 29, 2013 (Monday-Friday)  
New York City College of Technology  
9:00 AM — 1:00 PM

Campaign Day: Three (3) days to be determined

6:00 AM — 3:00 PM

### LOCATION

New York City College of Technology  
300 Jay Street  
Brooklyn, New York 11201

**\$1,200 stipend to successful candidates**

### TO APPLY

Please contact Ms. Laura Yuen-Lau at [lyuen-lau@citytech.cuny.edu](mailto:lyuen-lau@citytech.cuny.edu) or 718.254.8668 for an application. Questions regarding the research internship program may be addressed to Program Coordinators :

Dr. Reginald Blake      [rblake@citytech.cuny.edu](mailto:rblake@citytech.cuny.edu)

Dr. Janet Liou-Mark      [jliou-mark@citytech.cuny.edu](mailto:jliou-mark@citytech.cuny.edu)

### DEADLINE:

**Complete application due Thursday, April 18, 2013**

Please submit to Ms. Laura Yuen-Lau (New York City College of Technology, 250 Jay Street, Midway Building—Room 308, Brooklyn, New York 11201)

This project is in collaboration with City Tech's National Science Foundation's Opportunities for Enhancing Diversity in the Geosciences (NSF OEDG) program.
