DEAR SIR OR MADAM:

Please consider me an applicant for your graphic designer position. I believe I am the right fit for this position since I have many experiences and skills that I can contribute to your team.

I am a recent Communication Design graduate of New York City College of Technology. I have gained a lot of experience designing logos, posters, product packaging, advertisements, websites, and booklets. Also, I have done an internship at a startup business called DEAREST, an educational child care company. I have learned a lot of skills and design principles there and this experience made me more interested in logo design and branding, which I believe you excel at in your studio.

I have also studied graphic design in Tokyo, Japan, which is where I am from. I have noticed many differences in design between the two countries. I believe that my design experience in the United States and Japan adds a wide variety on my work, which makes them unique.

I look forward to meeting with you to further discuss my qualifications and portfolio.
