What We Learned in Class 5/4/20

On Monday, we first discussed everyone's ideas about the video projects we were going to do. We elaborated on our ideas and how we could expand upon them, and we also looked at a few people's projects. We also watched a clip of JJ Abrams talking about creating Star Wars and carrying on its legacy but I don't like that guy and I will happily fist fight him. We were given a tutorial on how to use iMovie, and how we can use it to create our documentary. I already use iMovie for my Youtube videos, but it was cool to learn other tips and tricks!

I know this is supposed to be five paragraphs but I'm going to be honest; I'm going through a bad depressive episode and I've been in the ER three times this week. I am very depressed and very tired and very stressed and I cry a lot and I completely forgot about this assignment and I'm sorry about that. I am trying my best but dealing with a chronic illness and a mental illness at the same time is very draining. I'm sorry this wasn't better and I understand if you can't give me a good grade on this assignment but the truth is I am very sick and depressed and the world is ending. Thanks for understanding.
