Greetings, Brand Union Design team!

I'm writing this letter to you today to inquire about the Design Internship position that your company is offering, as I would love to brand my summer with you all.

What I admire about Brand Union is that it is a company that reveres its creative style as heavily as it does its social presence and user experience. I especially love the branding of EyeJust and WiZink. Both brands show a creative use of color and composition, with a creative use of typography combined with textured patterns to take something as nondescript or corporate and making it exciting and consumer friendly.

My problem solving methods and meticulous nature play a large part in utilizing conceptual design with my creative vision to create both a unique and user friendly outcome. For a company to show consistent activity on various social media platforms while also continuing to expand its horizons--both in quality and in modernity--I believe that Brand Union needs someone that shares this philosophy and truly understands it, and that person is me.

I appreciate you taking the time to review my application, and I look forward to hearing from you soon!

All the best,

Shannon BelozeroVA
