

## **Overview**

### **QUEST Diagnostic Testing Services (Phlebotomy/Blood draw)**

We are the world's leading provider of diagnostic testing, information and services that patients and doctors need to make better healthcare decisions. Our services range from routine blood tests - such as total cholesterol, Pap testing and white blood cell count - to complex, gene-based and molecular testing.

We perform medical tests that aid in the diagnosis or detection of diseases, measure the progress or recovery from a disease or confirm that an individual is free from disease. We have specialized expertise in cancer, cardiovascular diseases, infectious diseases, and neurology. We at Quest Diagnostics, along with our family of brands, offer a wide range of diagnostic tests and expertise covering the spectrum of medical conditions and specialty areas.
