

The background of the image consists of a series of concentric, wavy lines in shades of pink and white, creating a hypnotic, tunnel-like effect that draws the eye towards the center. The lines are smooth and have a slight gradient, giving the background a soft, ethereal quality.

HANSEL AND GRETEL

ORIGINAL STORY

The story Hansel and Gretel is about a brother and sister abandoned in a forest, who come across a house made of gingerbread, cake, and pastries. This house is owned by a woman who uses her house to attract children to her home. Hansel and Gretel fall into this trap as they find themselves intrigued by her delicious house. She reveals herself as a witch and tries to eat the children. After chasing the children around the house, they trick her into falling in her oven. This gave them the advantage to escape from the witch and what would have been their fate.

RENEWED STORY

In my rendition of Hansel and Gretel, I decided to change the time period to the 21st Century. Hansel and Gretel still find themselves lost in the forest and attracted to the house made of candy. When the woman shows her true intentions and reveals herself as a witch, she transforms into a hideous creature with tentacles, and a blade for a hand. As the creature chases the children around her home, it loses them. While hiding, the children find a hidden journal from a recently defeated witch hunter explaining that looking into the eyes of the beast causes death. The children then plan to defeat the witch by using technology. The beast finds the children and chases them again. This time, the kids lure the beast using their smart phones to see the witch as they run. After luring the beast into the kitchen they shove it into a boiling pot. The beast boils and burns as the children escape and are free to tell the tale.
