Our Stories: Becoming a College Student Prompt Two

Research has shown that first-semester students often worry about their transition in to college and how eventually students become comfortable and find a community of people with whom they are close and feel they belong.

As we near the end of the semester, we invite you to share a second experience about becoming a college student at City Tech. Aim to write 300-500 words and be sure to illustrate your post with examples from your own experiences in classes, seminars, lectures, study groups, or labs. What happened? How did you and others involved think and feel? How did it turn out?

To complete this assignment:

- click the plus (+) sign at the top of the [FYLC site](#)!
- select "add new" post from the dashboard
- write your post
- select your FYLC faculty member as a category
- read and comment on at least two of your peers' stories.

Thank you for participating in "Our Stories"!
