- Look for the checkmark an instructor has endorsed a student solution.

Make a good subject line!

- Make a good subject line!
- Others will want to know exactly what this question is about.

◆□▶ ◆□▶ ◆臣▶ ◆臣▶ 臣 のへぐ

- Make a good subject line!
- Others will want to know exactly what this question is about.
- So put the problem number and the assignment it came from in the subject line!

- Make a good subject line!
- Others will want to know exactly what this question is about.
- So put the problem number and the assignment it came from in the subject line!
- Be concise. Try to enter mathematical notation according to the instructions, to make it easier to read.

- So put the problem number and the assignment it came from in the subject line!
- Be concise. Try to enter mathematical notation according to the instructions, to make it easier to read.
- Always include the problem itself in your post.
- Review your question after you post: make sure it is clear, edit it if it is not.

 Try to enter mathematical notation according to the instructions, to make it easier to read.

◆□▶ ◆□▶ ◆臣▶ ◆臣▶ 臣 のへぐ

- Try to enter mathematical notation according to the instructions, to make it easier to read.
- If you find an error or want to improve or add to a student solution, EDIT it.

- Try to enter mathematical notation according to the instructions, to make it easier to read.
- If you find an error or want to improve or add to a student solution, EDIT it.
- The idea is to edit the student solution until it is perfect.

◆□▶ ◆□▶ ◆臣▶ ◆臣▶ □臣 = のへで

- Try to enter mathematical notation according to the instructions, to make it easier to read.
- If you find an error or want to improve or add to a student solution, EDIT it.
- The idea is to edit the student solution until it is perfect.
- The instructor can endorse a student solution; usually you should not edit it after that.

- Try to enter mathematical notation according to the instructions, to make it easier to read.
- If you find an error or want to improve or add to a student solution, EDIT it.
- The idea is to edit the student solution until it is perfect.
- The instructor can endorse a student solution; usually you should not edit it after that.
- Use followups ONLY to ask additional questions about a solution which has been posted.
