

Presentation Outline

Style Guide Outline

Here's what you can include in your group's presentation. Each number represents a different page in the pdf.

Be sure to include page numbers and titles for each page.

1. Title of project and names of group members
2. Description of the project (short)
3. Research—the specific examples of infographics or other designs that inspired your group
4. Sketches (digital or hand-drawn)—any specific examples that show how you got to your final outcome.
5. Final Design—this might require multiple pages to show the different panels or sections
6. Overview of the colors, typography, and logos, and graphical elements that you used
7. Mockups that show how the infographic can look in use: hung up in a hallway, hung on bulletin board at Babies-R-Us, in Social Media.
