

**Culmination proposal:** would be to produce a short film of about 10 min minutes, that tells the story of two friends who make a documentary based on strange disappearances going on in their neighborhood. People who live in neighborhoods for years with roots in it just seem to disappear .As the documentary and investigation unfolds]they realize these are not what the seem.I plan on making a Mock-cumentary film will incorporate elements of comedy and satire on gentrification. The purpose of the film not only is to entertain but to inform more people on the issue of gentrification. Though this film may not necessarily solve the issue of gentrification but help educate people in an entertaining way.

**Project Deliverable / Role :**I plan on serving as the film's writer,director , and producer. Over the semester I plan on utilizing all the skills that I have learned over the past 3- 4 years and at the end showcase them at the end of Semester. In Addition to that I also plan to provide the Ent department and fellow students with some entertainment and teach them what I learn throughout the process.

**Budget/Materials**

Material	Price
U Beesize 62 inch Selfie Stick tripod	\$ 17.68
