

## Project: NIST 5 Phases

Information for the class project, including the project team roster and other supporting information.

**Team 1 – NIST Identify Step: ID**

**Team 2 – NIST Protect Step: PR**

**Team 3 – NIST Detect Step: DE**

**Team 4 – NIST Respond Step: RS**

**Team 5 – NIST Recovery Step: RC**

Analyze your team's NIST framework components using the McCumber Cube categorizations (across all three dimensions):

1. Where are there strengths?
2. Where are there potential overlaps or lack of clarity?
3. Where are there gaps?
4. What additional research and other recommendations does your team have?

Develop a presentation of no more than 16 slides which summarizes the work your team completed, your findings, analysis, and recommendations, to be presented in Week 5.

This assignment is due to be completed before 11:59 p.m. ET/USA on Wednesday, 29-Jun-2022.

Email Professor Patrick at [PaSlattery@CityTech.CUNY.edu](mailto:PaSlattery@CityTech.CUNY.edu) with any questions or concerns.

Thank you.
