To Whom it May Concern;

This letter is in reference to Ms. Tatum Benn. Ms. Benn is currently in the BSN nursing curriculum at New York City College of Technology. I was her theory and clinical instructor for her second semester nursing course in the undergraduate program and have watched her growth after her graduation from the program as she obtained her RN license and progress through the BSN program.

Ms. Benn actively seeks out new learning experiences. She has had experience caring for children, adults and older adults in long term care and acute care settings. Her second semester clinical rotation included caring for clients on pediatrics, telemetry cardiac step down unit, orthopedic trauma unit and generalized adult medical surgical unit. In third semester she had experience caring for acutely ill, ventilator dependant clients. The BSN program is community based. She has strong communication skills both verbally and in writing.

I highly recommend Ms. Benn for your volunteer program. I feel she will benefit from the experience.

Sincerely;

*Pearline Okumakpeyi*
