Experience

New York City College of Technology | Brooklyn, NY

Dental Hygiene Student

09/2019 - Current

- Studied work of fully qualified hygienists to learn scaling, prophylaxis and treatment techniques.
- Took dental images and X-rays to identify areas of concern and presented to dentists for review and discussed with the patient, making them aware of their current oral health.
- Provided oral hygiene care instructions by demonstrating effective tooth brushing and flossing techniques and introducing other dental care products. Educated patients on biofilm plaque formation.
- Applied cavity preventing agents, like fluoride and sealants, to protect patients' teeth from decay.

- Learned how to communicate with patients to reduce anxiety and improve patient comfort.
- Managed dental equipment, including sanitizing between uses and replacing disposable covers.
- Studied new and advanced dental hygiene methods and technology by completing continuing education coursework.

Sanctuary Hotel New York | New York, NY

Manager's Assistant

05/2018 - Current

Implemented training processes for newly hired employees and supervised department managers, shift leads and production personnel. Organized schedules, workflows and shift coverage to meet expected business demands. Mentored staff to enhance skills and achieve daily targets, using hands-on and motivational leadership.
