

DREAMCHASER

Tariah Spencer ; Cinematographer
Department of Entertainment Technology

Introduction

Growing up I have always dreamed of one day becoming a cinematographer, video editor and movie director. To work towards that goal, for my culmination project, I teamed up with my colleague, Tatyana Price, to be her cinematographer for her visual narrative, *Dreamchaser*. Her film will be about how important it is to chase your dreams despite all the odds, keep pushing forward and to never give up. With my set of videography skills, I believe I will catch all of the shots she requires to make her vision come true and into reality.

The videography skills include:

1. Patience and concentration
2. A high level of self-motivation, commitment and dedication
3. The ability to listen to others and to work well as part of a team
4. Organizational and time management skills
5. Creativity and a passionate interest in film and video editing
6. A keen eye for detail and a critical mind

Conclusion

Overall, despite all of the challenges I had for this production, my ability to make Tatyana vision come alive was very effective and successful. Everybody loved my work and all of my videography skills were on point. There were times, we had different opinions on certain shots but in the end, we came together as a team to make a very successful, heart felt video.

Budget

- Camera (Nikon D5200) = \$800
- Tripod (SunPak Ultra 7000TM) = \$60
