

Notes:

1. For each end of the top stile, holes should be drilled 3" from each end and 2-1/4" for each toggle. If using 1/4" wire rope, use 3/16" drillbit.
2. Wire rope should be 9'-6" in length.
3. All rigging equipment except copper swage sleeve should be the same size. (Shackles, Jaw to Jaw turnbuckle, thimble, wire rope).
4. Chain should be looped and half looped on Sch 40' pipe.
