INTERVIEW QUESTIONS

- ❑ What made you want to become an architect?
- ❑ Who is your favorite Architect/Engineer?
- ❑ What would you like to accomplish as an Architect/Engineer?
- ❑ What are your strengths?
- ❑ What would you like to improve on?

SAMIT CHOUDHURY

Since his childhood, it was mentioned to his acknowledgment that he obtained great artistic skills, and going up developed interest in physics and chemistry. That's one of the leading factors to his decision in becoming an architect due to the fact that his interest involves getting paid for something he loves. One of his uncompleted goals is to create a landmark building that would be admired by others. Even with his artistic skills, a complicated concepts in physics, architecture, mathematical problems very easily, he has interest in video games, and still undergoing development in his reputation.

LANGSTON CLARK

- I want to be an architect because it gives me an opportunity to make a difference in the world and improve society, architecture can also be very influential on many levels.
- Eero Saarinen is my favorite architect because of his modernist approaches and expressions during the 1960's. I believe he was ahead of his time & he is very inspiring to me
- I would like to improve society, and make humanity more sustainable
- Imagination and intuition are my strengths. I also love problem solving seeing things through to the completion. My weakness is that I take a lot of time to do certain tasks.

VICTOR NKAMA

The inspiration to become an engineer is a deep passion developed with steep foundation since childhood, with the hunger to bring a new legacy to the engineering industries. Favorite engineer is all engineers, due the the fact that they have all made a difference in the society. Accomplishment as an engineer is to create an evolutionary change. Strength is a unique ability given to mankind. In strength he learn easily and fast, as well as being an intercessor for coworkers/mates still in development in certain criteria. An area in development is the ability to utilize revit.
