SELF-CRITIQUE OF YOUR PROJECTS

To properly critique yourself, try to answer the following questions carefully. Do not be concerned with how "good" or "bad" you think the drawings are. What is important is how well you met the stated criteria.

Pı	roject 1 - A — Feet	YES	NO
•	Did you observe the subject as much as you observed your drawing? Did you attempt to draw "blind" at least three or four times? Did you try "restating"? In your judgment, does the drawing contain accurate contours and details that resemble what you observed?		
P	roject 1 - B — Hand	YES	NO
0	Did you observe the subject as much as you observed your drawing? Did you attempt to draw "blind" at least three or four times? Did you try "restating"? In your judgment, does the drawing contain accurate contours and details that resemble what you observed?		
P	roject 1 - C — Pepper	YES	NO
0	Did you make the first drawing without either looking at or having just studied the fruit?	***************************************	
0	In the second drawing, did you observe the subject as much as you observed your drawing?	**********	
•	In the second drawing, did you attempt to draw "blind" at least three or four times?		
0	In the second drawing, did you try restating? In your judgment, does the second drawing contain accurate		
	contours, tones, and details that resemble what you observed? In your judgment, is there a significant difference in the quality of the two drawings?		
Project 1 - D — Eyes		0.000	NIO
P	roject 1 - D — Eyes	YES	NO
0	Did you observe the subject as much as you observed your drawings? Did you attempt to draw "blind" at least three or four times? Did you try "restating? In your judgment, does the drawing contain accurate contours, tones, and details that resemble what you observed?	YES	NO
0 0 0	Did you observe the subject as much as you observed your drawings? Did you attempt to draw "blind" at least three or four times? Did you try "restating? In your judgment, does the drawing contain accurate contours,	YES	NO
