Summarize

From the poem, "Still I Rise" by Maya Angelou, the poem describe like the Afro-American live been here and white people racial discrimination problem to them. White people give them oppression. White people was hate black people living U.S, they just make some trouble to black people, they don't think black people is human, they think black people just slave. But the black people want to triumph over adversity. They want to survive here, they are challenge to white people, because they are human too, not slave. And then they won.
