John Doe
Guitar Center Graphic Designer
New York, NY 12345

Dear John,

I am writing to you to express my interests in joining Guitar Center's company as a graphic designer. I am currently a student at the New York City College of Technology in the graphic arts bachelors program. In the past I have done ads for Ibanez and they ended up in the school gallery. What makes me stand out from the others is the skill of how to play a guitar. I know a guitar inside out. I also know the popular brands and what makes them distinct from each other. Not just actual guitar brands, but accessories such as Dunlop, Seymour Duncan, Clear tone, and EMG. The combination of these skills will give me a boost in this field.

I have worked on assignments for myself outside of class. One in particular is the creation of a new custom guitar. This isn't your average advertisement, but huge amounts of work and dedication go into this. I have experience doing freelance work for many clients.

I am looking forward to joining you and your colleagues.

Sincerely,
Zayd Sanders
