FRONT

TOP

consistency in shape

SIDE

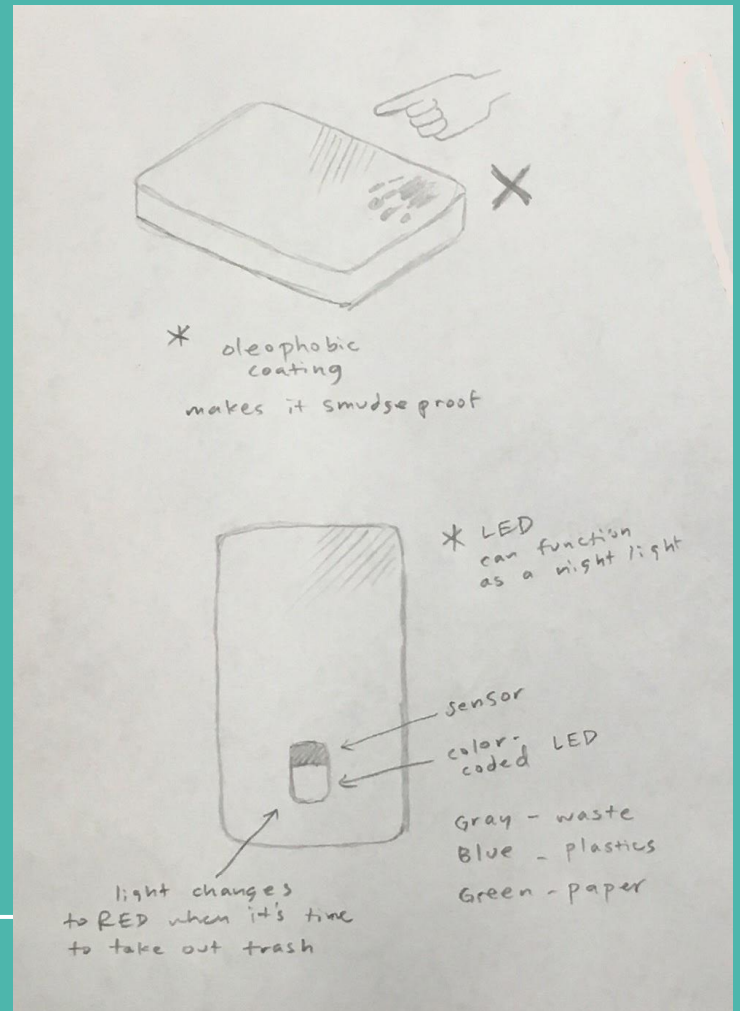

MODULAR TRASH BINS

The Competition

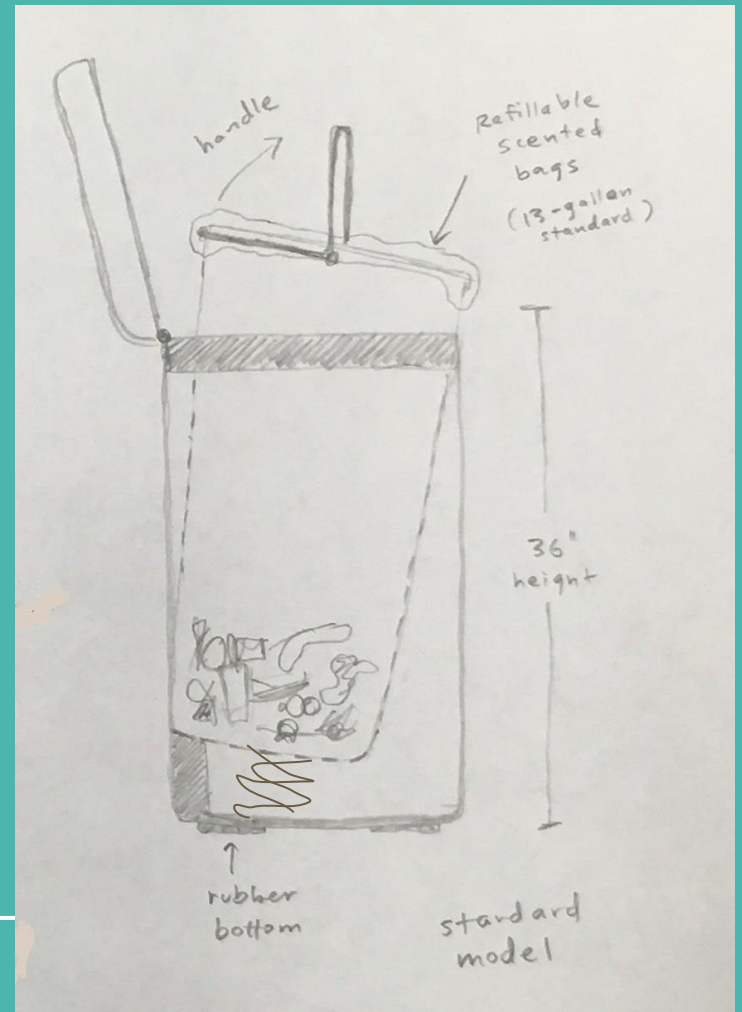

Main Features

- Rust-proof stainless steel
 - Easy to wipe clean
- Oleophobic coating
 - Prevents fingerprints
- Sensor
 - Opens up trash can automatically
- LED
 - Indicates trash type/ full bin status
 - Also functions as night light
- Scented bags
 - Brings a fresh scent
- Carbon filtering
 - Helps absorb odors

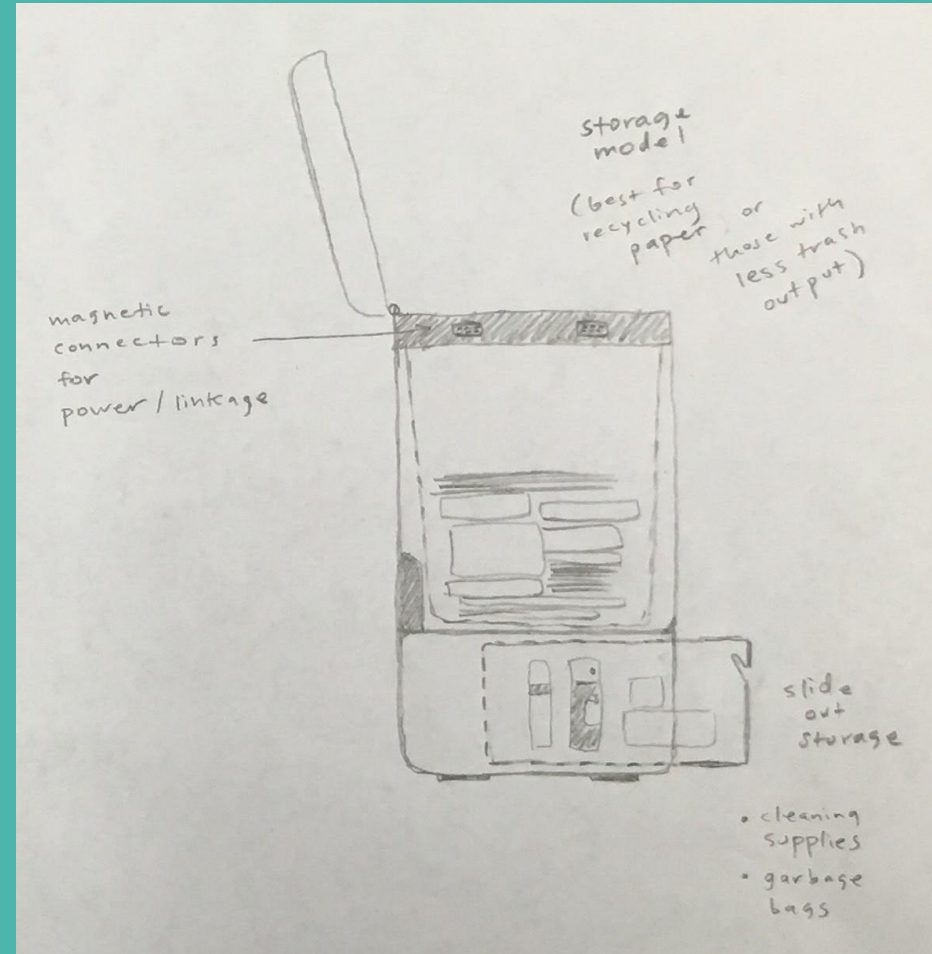

Standard Model

- Automatic opening
 - Smart detector knows when you want to throw away trash
- Inner bin
 - Makes things easier when cleaning time comes around
- Handle for inner bin
- 36" height
 - Good average height for adults/kids
- Mechanized bottom
 - Opens up automatically to remind you to take out your trash and change bags

Storage Model

- Similar features as Standard Model
- Slide out storage
 - Storage at the bottom can be used for cleaning supply-related items
- Mechanized bottom
 - Automatically lifts bin when your trash is full, reminding you to change bags

Human Factors

- Can be used by adults and kids
- Convenient for people with disabilities
- Great for germaphobes that like to maintain cleanliness, without having to touch much trash.
