WHO IS THIS TRAVIS YOU SPEAK OF?

I love typography and typography loves me, together we have an amazing relationship. I take a more minimal approach when it comes to my designs, I like to keep it simple. My eye for design is really strong, simply because I believe there is always room for improvement. I love to challenge my creative thinking so I am constantly observing and analyzing designs wherever I go. Brand Identity and Logo design is another love of mine, to me they present a challenge similar to a puzzle which I find very intriguing. I have a strong fire that burns bright for anything design related, drawing inspiration anything.
