LiveMe/UpLive

LiveMe and UpLive are both broadcasting apps that I use because this is a way for me to make society. LiveMe is one of the top broadcasting apps where users can meet stars, become stars, grow a fan base, meet friends, play games, and send virtual gifts to catch broadcaster's attention. LiveMe is used for users to show the world what they are up to at any given moment. UpLive is a live streaming mobile app with over 20 million users. UpLive is used for live streaming that allows users to like, gift and share the broadcast.

I am on LiveMe is to make more money. I am on LiveMe is to make more friends, meeting new people every single day from the outer countries. I am on LiveMe is to improve my Chinese with my friends. I am on LiveMe is to gift each other gifts with special effects. I am on LiveMe is to get a coin drop.

I am on UpLive is to make more money. I am on UpLive is to make more friends, meeting new people every single day from the outer countries. I am on UpLive is to talk with people near me or far away that talk the same language as me. I am on UpLive is to gift each other gifts with special effects. I am on UpLive is to get a Treasure Chest.

I don't know what my talent is. The talent is that I don't know because I have a lot of talent, for example, gaming, chatting and gifting friends. I recommend LiveMe and UpLive because of my friends on there are popular.
