**Culinary Math Assignment: How Big is a Quart?**

Your first homework assignment is to go to your local supermarket and identify the size and prices of various dairy products. Indicate type of product (skim milk, 2%, organic, heavy cream, half and half, lactose reduced, etc.), brand, package size (quart, pint, half gallon, pound, etc.), price per package, price per fluid ounce (liquids) or per ounce (butter). Use the table below to document your findings.

Milk (type)	Brand	Package size	Price/package	Price/ fl. oz. or oz.
Cream (type)				
Butter (type)
