Student Email

General Policy

Registered students of NYC College of Technology are provided with a CityTech e-mail address. E-mail is the official means of communications regarding Academic and Administrative matters. Students are expected to read, reply and act upon the email in a timely manner. The email account will remain active as long as the student is registered. Email accounts will temporarily be disabled for unregistered students, but will be reactivated upon re-enrollment. After graduation, students will have the option of keeping the E-mail account with advertisements. (Please contact the Student Computing Helpdesk for further details).

When Will I Receive An E-mail Account?

Once a student enrolls for classes, an E-mail will be sent to the students' personal E-mail address with notification and information about their new campus Citytech E-mail address. This notification will be approximately 7 days after enrolling for classes. Once a campus account has been created, no further E-mails will be sent to a students' personal E-mail.

A new look for new courses!
We've just introduced a new template for courses on the OpenLab. The template determines how courses appear when they're first created; existing courses won't be affected. Read more about the new template on the Open Road.

Etiquette and Engagement

- Camera on? Sure!
- Camera off? That is fine too.
- Mute your microphone, not your voice!
- Chatting, stay connected throughout class
- Breakout sessions...

Breakout sessions…
it is time to connect with a small group of classmates

- Let’s try it out: Instructions...
  - The break out session will last for 15 minutes.
  - Make sure to identify a scribe and a speaker
  - Discuss the following: Your first college classes will start in a few weeks, what are you most excited about?
  - Be prepared to share your group’s notes in the chat and to share a 1 minute summary of your conversation with all your classmates.

Before we Meet Again

What do you want your classmates to know about you? Consider sharing your goals as a college student, why you chose City Tech or what you hope to learn in your first semester at City Tech. Introduce yourself by replying to the reflection post on the course OpenLab site. Read other classmate's replies and help welcome each other by writing a response.

Make sure you are logged in, if you need help using the OpenLab, use the help tool.

Introduce yourself in Discord chat
