

Jake Babich
Culmination Proposal

For my Culmination project I would like to make a 4-8 Minute Silent Short film about two plushies falling in love and displaying a deep infatuation with each other. My whole life I've always loved films. I thought the culmination project was a perfect opportunity to finally go for it and write and direct my first film.

I plan to write, direct, score and mostly edit the whole thing. I definitely want to ask some classmates I had in my editing classes to help me edit scenes to get fresh eyes on scenes. One of my best friends is a photographer so I will definitely use him for Color grading and make sure it looks exactly the way I want it to. For the script writing process I have a friend who makes Short films consistently. Naturally I would go to her for edits, revisions and ideas. For the sound Aspect I will score the film but my Classmate Colin Norman will mix all the audio for the film.

I want the viewer to be able to feel something just by looking and listening to the film. Soon I will be making a mood board for the film, then I would like to write the script, then Storyboard the whole thing and then finally shoot and edit the film.

Methods

For this project I do not have a big budget, but I do have an Iphone 13. I will shoot the film on my iphone. I also plan to get a stabilizer and a tripod for my Iphone, I do not want a shaky camera. For the Score i will be composing it on Logic pro X. For editing on my end for the film I will be using Avid Media composer which I learned how to use at City Tech.

Project Deliverables

- Film score
- Poster
- Open lab portfolio
- Materials
- Shoot Schedule

Schedule:

- Shooting to be done by early November.
- Editing to be done by November 30th.
- Film Score to be done by December 1st
- Poster to be done by December 5th
- Open lab portfolio to be done by December 5th

Required Resources:

Softwares I will need for the film: Logic pro x (Already own), Avid Media Composer(Already own). I will need to buy an Iphone Compatible Tripod and an Iphone compatible Camera

Stabilizer. I will also Need lights for indoor scenes. Hopefully, the lighting department can help me with that. For outdoor Scenes I will rely on Natural light from the sun.

Budget

Gimboapro Iphone tripod and stabilizer: \$170

Avid Media composer subscription: \$10 a month

2 Plushies : \$45

Total: \$215
