

## A Living Laboratory: Activity Template

### DRAFT

We are creating a cross-disciplinary collection of teaching activities that use the best practice approaches fostered in the “Living Lab”: adoption of City Tech’s General Education Student Learning Outcomes, George Kuh’s High Impact Educational Practices, place-based learning, open digital pedagogy (the OpenLab), and formal assessment methods.

Share your best practices with your colleagues! Use this form to record a favorite activity (module, assignment, exercise, homework, group project, etc.); it can be short or extensive – take as much space as you need.
