

## Hardware City

7906 Jamaica Ave, Jamaica, NY 11421

Hardware City, located in Jamaica, Queens is a small family shop with lots to offer. It is a little heavy into Queens right off the J train or about a 40 minute drive from school. The exact address for the location is 7906 Jamaica Ave, Jamaica, NY 11421. With three aisles of items, they range anywhere from familiar tools to useful hardware, plumbing supplies and limited lumber supplies. They also had a selection of paints and did the mixing for you on site. The staff was friendly and very knowledgeable at leading you to the right equipment for the job as well as

recommendations. Like a typical mom and pop shop, it was a little crowded while still being considerably organized. Hardware was easily found and all items were labeled along with sizing in order. Aside from basic hardware store needs they also offered bike repairs. They had a wide selection of residential items but most of the materials could be easily applied to the scenic world and be used.
